Enable intelligent and seamless workspace experiences

Adapting meeting rooms to hybrid work requirements requires a unique blend of collaboration technology, seamless workflows and meeting intelligence. Learn how Cisco Room Kits can help bridge the gap between physical and digital by providing immersive work experiences, infusing flexibility at every step of the way, and creating environments that support intelligent collaboration at scale.

What you need to make hybrid work, truly work

Platform and room integrations

Simplified deployment & maintenance

Purpose-built hardware for every space

Collaboration AI

Immersive, inclusive experiences

Unified management & workspace analytics

The dedicated office

Create a connected personal workspace powered by open video collaboration that brings usability, ease and aesthetics to any dedicated or home office.

-  Intelligent speech capture
-  High-quality video and spatial sound
-  AI assistant
-  Wired & wireless content sharing

Featured devices:

- Cisco Room Bar
- Cisco Room USB

The huddle space

Bring boardroom experience to your small spaces combining multi-platform meetings, immersive collaboration, and great presentations.

-  Touch meeting and room controls
-  USB-C for BYOD and content share
-  Frames for AI multi-participant framing
-  Embedded chat, live captions and translations

Featured devices:

- Cisco Room Bar
- Cisco Room USB

The classroom

Deliver engaging hybrid lectures and classes by using exceptional presentations, crisp sound and stunning video.

-  One Button to Push meeting join
-  Microphone extension
-  Wide-angle camera to capture everyone
-  Immersive share

Featured devices:

- Cisco Room Bar
- Cisco Room Bar Pro
- Cisco Room Kit EQ
- Cisco Room Kit Pro

The meeting room

Gather the team together in an everyday workspace and include remote participants, no matter where they are.

-  Spatial sound
-  Frames for AI multi-participant framing
-  Intuitive touch controls & scheduling
-  AI noise removal

Featured devices:

- Cisco Room Bar
- Cisco Room Bar Pro
- Cisco Room Kit EQ
- Cisco Room Kit EQX
- Cisco Room Kit Pro

The shared open space

Jump on a meeting in your shared spaces for impromptu team syncs and presentations to keep the ideas flowing—without distractions.

-  AI noise removal
-  Meeting zones for virtual boundaries
-  Workspace metrics from sensors
-  External microphone extension

Featured devices:

- Cisco Room Bar
- Cisco Room Bar Pro
- Cisco Room Kit EQ

The training room

Gather the team together in an everyday workspace and include remote participants, no matter where they are.

-  Breakout sessions
-  Presenter tracking & multi-camera scenarios
-  External IP microphone extension
-  Frames & speaker tracking

Featured devices:

- Cisco Room Bar Pro
- Cisco Room Kit EQ
- Cisco Room Kit EQX
- Cisco Room Kit Pro

The conference room

Leverage exceptional video and audio, powerful content sharing and intelligent workflows in your high-stakes meetings.

-  Automations via macros & UI extensions
-  Multi-screen, camera and content support
-  Presence detection and people count
-  Flexible peripheral integrations

Featured devices:

- Cisco Room Kit EQ
- Cisco Room Kit EQX
- Cisco Room Kit Pro

The multi-content video room

Bring together specialists and experts from different locations by connecting via full HD video and sharing multiple content streams simultaneously.

-  Multiple content sources
-  Full HD video and crisp audio
-  Advanced room and device integrations
-  Macros & UI extensions

Featured devices:

- Cisco Room Kit EQ
- Cisco Room Kit EQX
- Cisco Room Kit Pro

The boardroom

Bring everyone together for high-stakes meetings while ensuring you break down the distance between in-room and remote participants.

-  Extended speaker view & cross-view
-  Full HD video and room-filling audio
-  Advanced room and device integrations
-  Directional voice capture

Featured devices:

- Cisco Room Kit EQ
- Cisco Room Kit EQX
- Cisco Room Kit Pro

The auditorium

Get everyone's attention, either present in the room or joining remotely, with the presenter front and center on stage.

-  AI presenter and audience view
-  Flexible room peripheral integrations
-  Rich video and content experience
-  Meeting zones

Featured devices:

- Cisco Room Kit EQ
- Cisco Room Kit EQX
- Cisco Room Kit Pro

Cisco video bars

Integrated video bars to equip small and medium rooms that seamlessly connect with peripherals and your external flat panel displays.

Cisco Room Bar

Codec-powered, intelligent video bar optimized for huddle spaces and small meeting rooms. Comes with simplified installation, built-in sensors and integrates with up to two screens.

Cisco Room USB

USB video bar for laptop-based video conferencing and content sharing, for an elevated BYOD experience in huddle rooms and small meeting spaces.

Cisco Room Kit Mini

An affordable, integrated video bar with a wide horizontal field of view, 4K content sharing, and rich sound for any huddle space or small room.

Cisco Room Bar Pro

The AI video bar for natural and equitable video conferencing, simplified deployment, and unparalleled interoperability to help you equip any medium-sized meeting room for hybrid work.

Cisco Room Kit

Powerful video bar best suited for medium meeting spaces and providing rich AI-based features. Supports extension with up to two microphones and integrates with up to two screens.

Cisco Room Kits

Integrated and modular room kits to equip medium and large rooms that seamlessly connect with peripherals and external flat panel displays and power advanced multi-camera experiences.

Cisco Room Kit EQ

Inclusive, AI-powered video meetings with a device bundle featuring the Codec EQ and the multi-lens Quad Camera. Provides enhanced connectivity, cinematic meeting features, and triple-screen integration in medium and large rooms. Also available as PTZ 4K integrator bundle.

Cisco Room Kit Pro

The AV integrator hardware bundle for medium-to-large rooms and custom AV deployments. Supports connectivity with multiple cameras, displays, microphones, speakers and other room peripherals. Also available as PTZ 4K integrator bundle.

Cisco Room Kit EQX

Get a flagship, multi-screen video collaboration experience in your medium and large rooms with this integrated, premium-quality room device. Designed for inclusive, AI-powered video conferencing, cinematic experiences, and immersive sound.

Cisco Room Kit Plus

Business-class collaboration kit featuring the Cisco Quad Camera and optimized for large meeting rooms and custom AV deployments. Supports extension with other cameras and room peripherals, and integrates with up to two screens. Also available as PTZ 4K integrator bundle.

Room peripherals

Touch panels

Bring intelligent conference controls, room booking, room controls and third-party workplace experience applications

Cisco Room Navigator for Wall

Cisco Room Navigator for Table

Microphones

Bring intelligent voice pickup into meeting rooms for a fully immersive, uninterrupted sound experience for remote participants.

Cisco Table Microphone

Cisco Table Microphone Pro

Cisco Ceiling Microphone

Room peripherals

Conferencing cameras

Provide powerful image processing, automatic zoom and focus capabilities while supporting intelligent camera views and flexible mounting options to fit larger spaces and multi-purpose rooms.

Cisco Quad Camera

Cisco Precision 60 Camera

Cisco PTZ 4K Camera

Cables

Offer reliable, high-speed data transmission and robust connectivity to your AV deployment.

Cisco USB-C Cables

Cisco HDMI Cables

Cisco 4K Multi-head Cables

Room codecs

Cisco Codec EQ

The ultimate video conferencing engine for larger spaces featuring an AI-powered NVIDIA chipset, and unmatched connectivity with screens, cameras, touch controllers, digital and analogue audio systems, and other room peripherals. It brings robust computing power to support a wide set of collaboration scenarios.

Cisco Codec Plus

A robust integrator codec providing enhanced connectivity, a powerful video engine and strong integrations to video-enable large meeting, training and conference rooms.

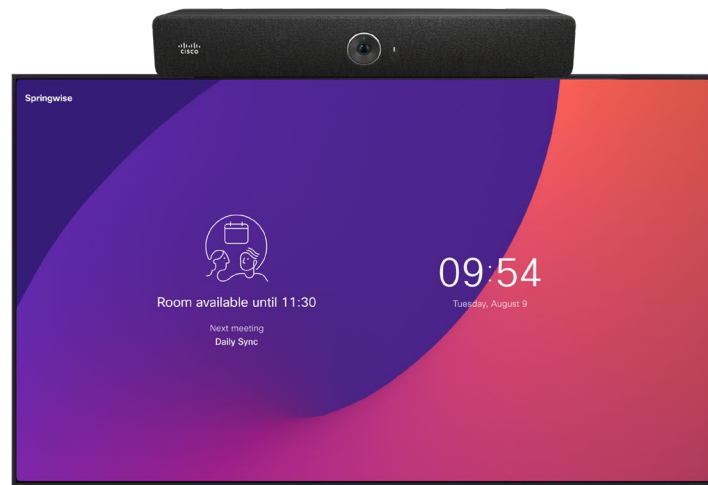

Cisco Codec Pro

The high-end integrator codec for custom collaboration scenarios and specialist AV environments with multiple cameras, screens, video and content sources, and an array of peripheral connectivity options to connect with microphones, speakers and other accessories.

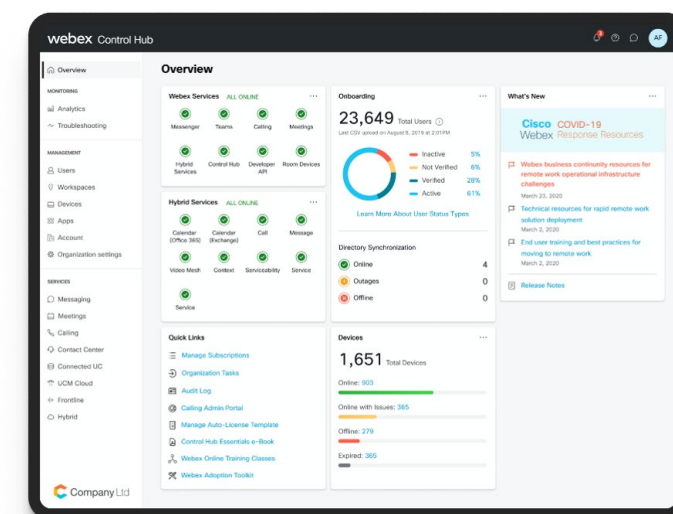

Platform

Cisco RoomOS

A cloud-based operating system purpose-built for collaboration. It's designed to enrich collaboration and in-office workflows with single-button meeting join, embedded collaboration AI, and rich third-party integrations. RoomOS enables native Webex Meetings and powerful video interoperability with third-party meeting platforms. It also powers the native Microsoft Teams Rooms on RoomOS experience.

Control Hub

A unified cloud device management dashboard helping admins control their entire Cisco collaboration deployment from individual workspaces to multiple tenants, run diagnostics, perform bulk configuration, manage integrations, and get valuable workspace analytics on resource utilization and environmental conditions.

Start video-enabling your hybrid workspaces today

Cisco Room Kit Series offer powerful collaboration solutions that integrate with flat panel displays to bring more intelligence and usability to your huddle, small, medium, large and specialized meeting rooms.

These integrated video bars and room collaboration kits deliver the unmatched video and audio experience that help your employees stay connected, while enhancing productivity and collaboration for in-person and remote attendees. Room Kits enable smarter meetings, smarter presentations, and smarter room and device integrations in a scalable and affordable way—further removing the barriers to usage and deployment of video collaboration in hybrid workspaces.
