

Happy New Year with Webex

The event idea

Happy New Year. What is your resolution for the year ahead and how can your collaboration tools help you achieve them! Create a fun short term campaign where using Webex your people can share their resolutions and get peer support and encouragement. To take it to the next level you could schedule in regular progress checks to really encourage accountability and positive change.

The location

Virtual – invite everyone into a Webex space.

People

Internal Comms to help create an engaging campaign. Your local champions to help encourage participation.

What you'll need

- ☐ A Webex space to post the resolutions.

Some example resolutions to spark ideas we like:

- **Be at more of my kid's soccer games.**
(Use Webex to ensure I can meet from anywhere/skip the trip.)
- **Be home in time for dinner.**
(Use collaboration to provide updates in Teams even when I'm not at the office.)
- **Work out more.**
(Mobile app means I can meet while I'm on my way to the gym! No more excuses for missing that Zumba class!)
- **Mentor a local student.**
(Communicate using Webex.)

What's the score?

Adoption stage: Adapt

Planning time: 1 weeks

Difficulty: ★☆☆☆☆

Cost: ●○○○○

Fun factor: ☺☺☺☺☺
