

Leadership in a Digital Workplace

Ask me anything

Authentic communication from leadership members is inspiring. You want to share your insights, the year's goals, and your plans to achieve them.

Let your employees know they can have open dialogue with you. Real-time video based 'ask me anything' sessions provide a simple, open way to connect with your employees. Video meetings give leaders a better understanding of the concerns and sentiment of employees.

Webex Meetings offer simple, modern video meetings that can be used to build a community in your company.

Authentically communicate over HD video and crystal-clear audio.

Meet from anywhere

Host Webex Meetings from any place that is comfortable for you. Have a fire side chat on your desktop or use a video system in your board room. It's easy for employees to join from any device. Take questions from the chat window or open the floor to employees to ask questions over video.

Record and share

Every 'ask me anything' sessions can be recorded so anyone who missed it can watch it later. A link can be shared that enables everyone to feel like they were part of the event.
