

Cisco Webex

OK Webex...

## Meet the voice assistant for work

A customer has just asked for a meeting on the fly and you need to find a private room to discuss business. You see an open conference room and aren't sure if it's free for you to use.

Just say, **“OK Webex, is this room available?”**

Or **“Hey Webex, show me the schedule.”**

If you're done with the assistant, just say **“Dismiss.”**

Want to do more with Webex Assistant? Say, **“OK Webex, what can you do?”**

Now available on compatible Cisco Webex devices.
