

OK Webex...

## Join a meeting with a few simple words

It's starting to look like "one of those days." You're running late for a meeting and stuck in traffic on your way into the office. You make it just in time to join the meeting, but your hands are full with your laptop, note pads and coffee.

In the scheduled meeting room say, **"Hey Webex, start my meeting!"**

When you are done just say, **"OK Webex, end my meeting."**

Want to do more with Webex Assistant? Say, **"OK Webex, what can you do?"**

Now available on compatible Cisco Webex devices.
