

Working better together with Webex.

Dear Colleagues,

Webex is an app for continuous teamwork with video meetings, group messaging, file sharing and whiteboarding. Our investment in Webex is motivated by the need to improve the way we work together and build relationships with partners, agencies and our colleagues in marketing.

Webex will help us connect with each other faster, help us grow ideas together and reduce email traffic. You no longer have to be chained to your desk, meaning we truly are a connected business.

To get started and get support click here <insert links>.

I'm looking forward to seeing marketing leading on new ways of working together with Webex.

Enjoy!
