Webex Calling PSTN options

Flexible PSTN connectivity options for seamless cloud migrations

Webex Calling delivers enterprise-grade calling on the trusted platform used by over 45 million people around the world. We provide customers with flexible options for PSTN connectivity that can be selected on a site-by-site basis to simplify cloud migrations and reduce costs. Our PSTN options enable customers to replace premises-based PSTN with a cloud-based service, or continue using their existing provider.

Simplified migrations

Continue using your existing service provider and SBC

Flexible options

Select PSTN connectivity on a site-by-site basis

Cost effective

Reduce costs with PSTN services tailored for your business requirements

Deploy telephony services tailored for your needs on a site-by-site basis.
