

# Webex Bringing the Best Video Experience to Slack

**Smooth, effortless collaboration** is key to succeeding in our digital economy.

And together, Cisco and Slack offer **seamless collaboration**.

Webex Meetings is the standard for **simple, delightful, secure video conferencing**.

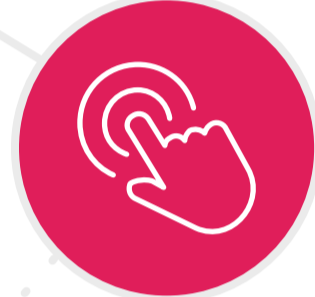

And **Slack** is where the right people and the right information **come together to get work done**.

## Now we've brought Webex Meetings into Slack.

Experience the complete Webex Meetings lifecycle **within Slack.**

**Smoothly.**

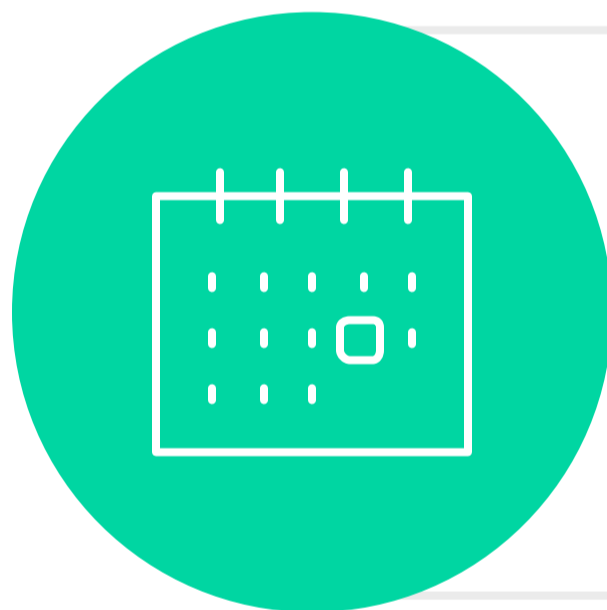

**Intuitively.**

**Effortlessly.**

## Now you never have to leave a Slack channel to:

**Schedule and see all your Webex meetings, right from Slack.**

Get reminders in Slack when you schedule using Webex so you never have to miss a meeting.

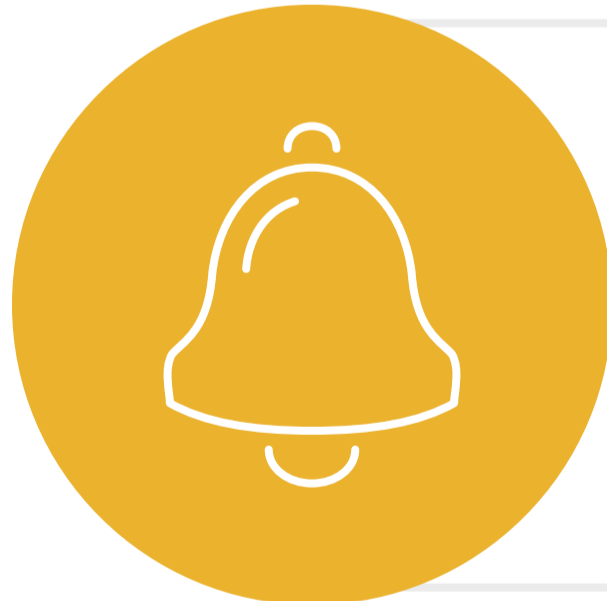

Preview your calendar list with the command `/webexschedule list`.

**Only with Webex Meetings in Slack.**

**Start and join your Webex meetings.**

Click the Call button in Slack and connect in seconds.

Simply type `/webex` to invite people to a Personal Room meeting.

**Never overlook a meeting again.**

With Outlook or Google calendar integration, you can join Webex Meetings in Slack through your Outlook or Google meeting reminders.

**Stay on top of every meeting without missing a beat.**

Get Webex Meetings status alerts when your meeting has started—and see who is in your meeting.

**No more chasing down emails to review a meeting.**

If you recorded your meeting, you'll automatically get a notification and summary in Slack. You can also see your list of recent recordings.
