

Make meetings more engaging with Slido in Webex

Recently, virtual meetings have taken over our lives. Even with the hybrid future of work that awaits us, they aren't going away. But they can be made better—where everyone can feel heard, decisions are made democratically and connections are strengthened between teams.

With Webex, meetings become more engaging using live polling and Q&A by Slido. You can use a diverse set of polling options, and Q&A features that create a highly interactive, inclusive and insightful meeting experience.

Benefits

Create meaningful engagement

Interact at scale, ensure understanding, and streamline decision making.

Foster an inclusive culture

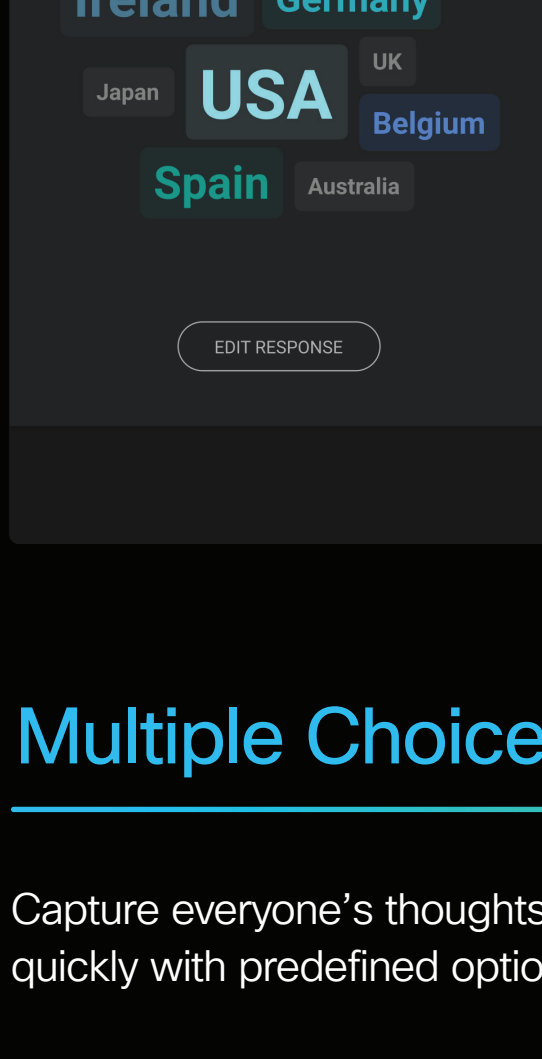

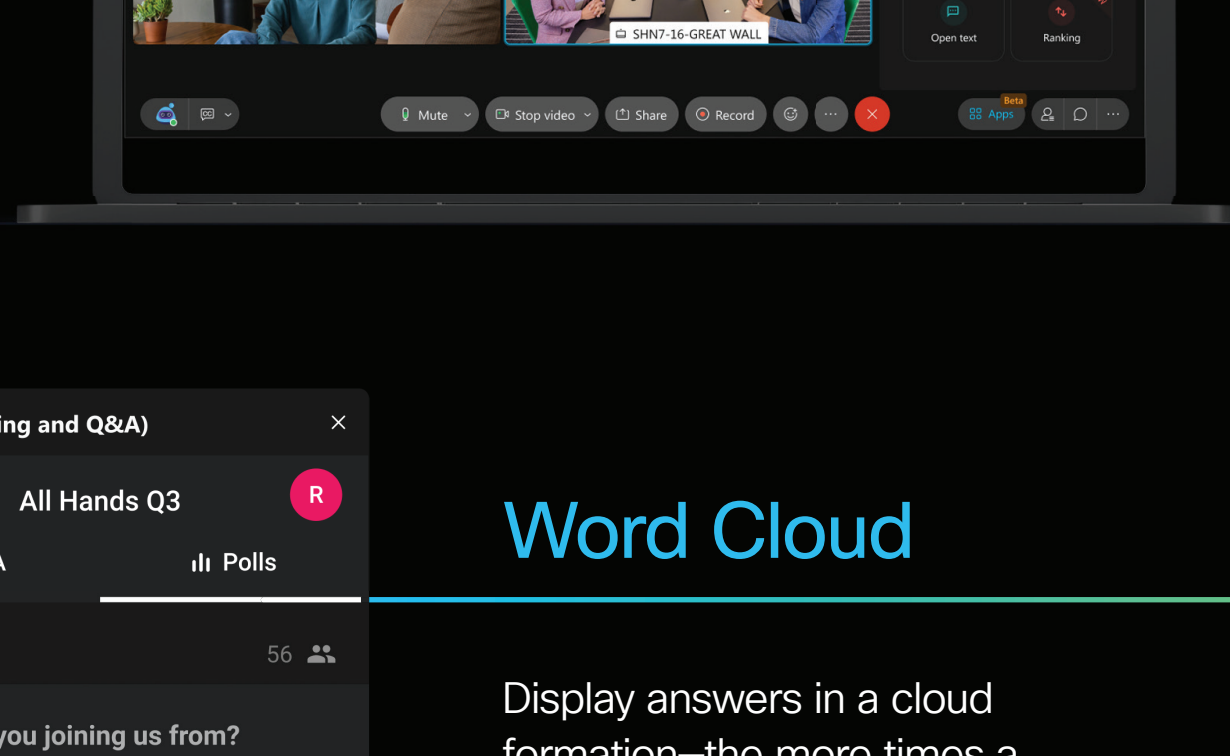

Democratize discussions, empower everyone, and listen to improve.

Build stronger connections

Facilitate team bonding, create transparency, and build trust.

Live polling

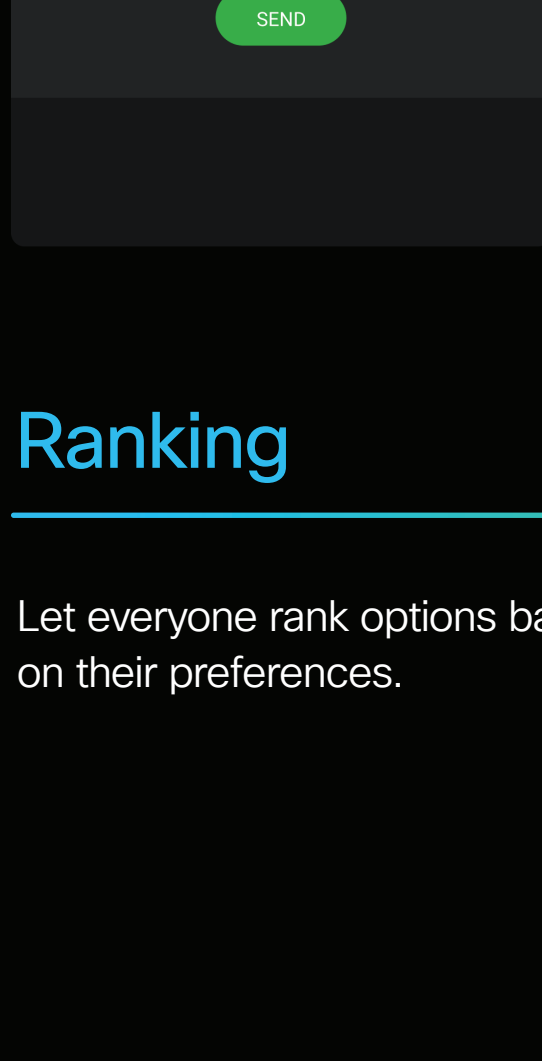

Word Cloud

Display answers in a cloud formation—the more times a word is used, the bigger it gets.

Multiple Choice

Capture everyone's thoughts quickly with predefined options.

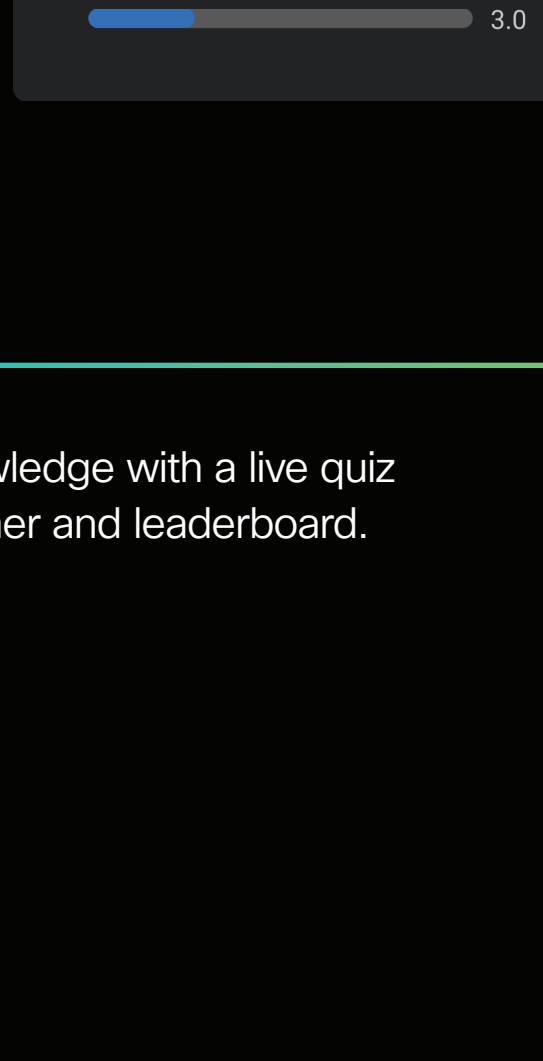

Open Text

Allow everyone to type in custom answers or comments.

Ranking

Let everyone rank options based on their preferences.

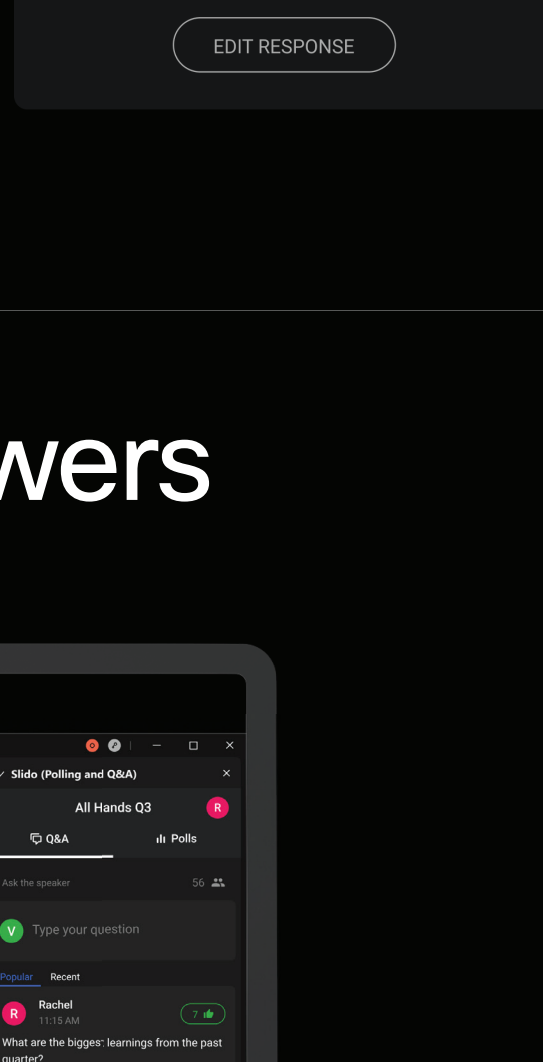

Quiz

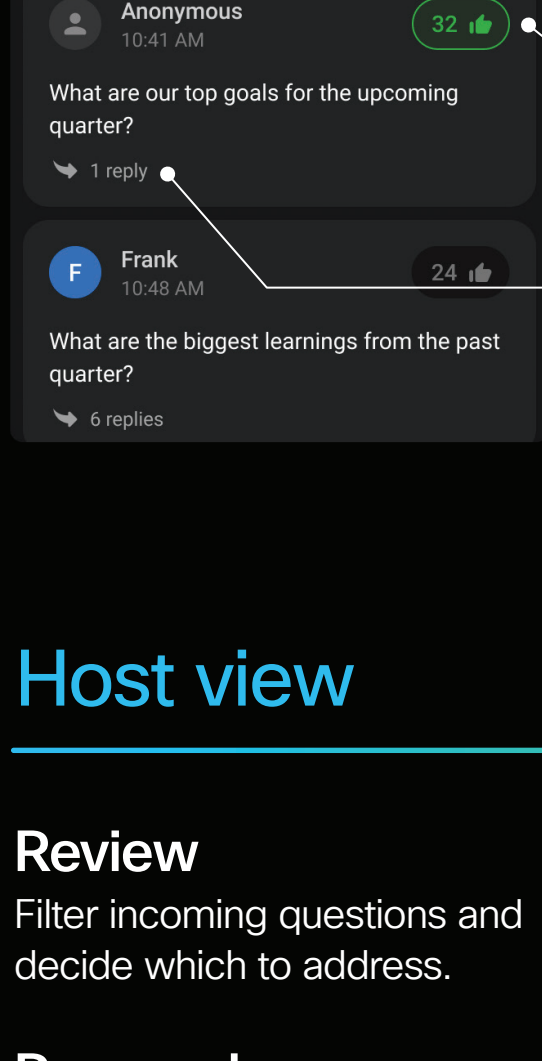

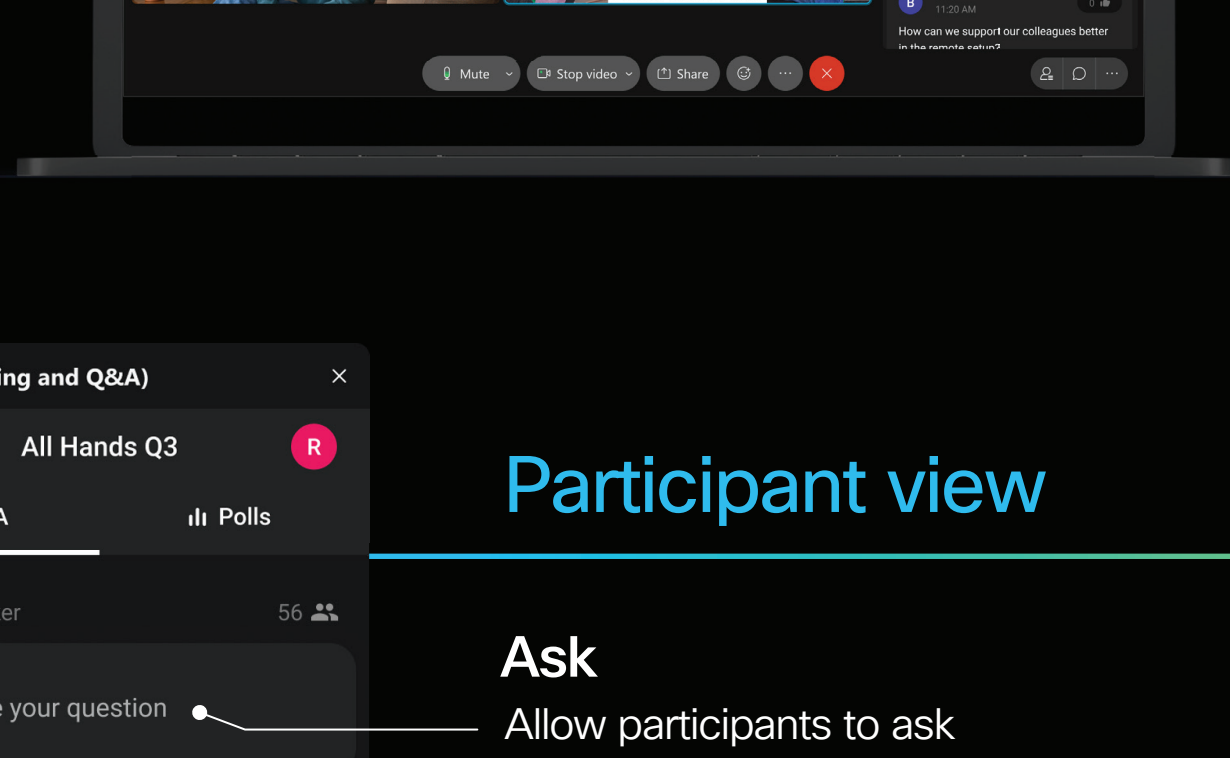

Test everyone's knowledge with a live quiz and gamify with a timer and leaderboard.

Rating

Let everyone rate anything—meeting, topics, decisions, etc.

Live questions and answers

Participant view

Ask
Allow participants to ask questions during the meeting.

Upvote
Let participants upvote other's questions, pushing the most popular to the top.

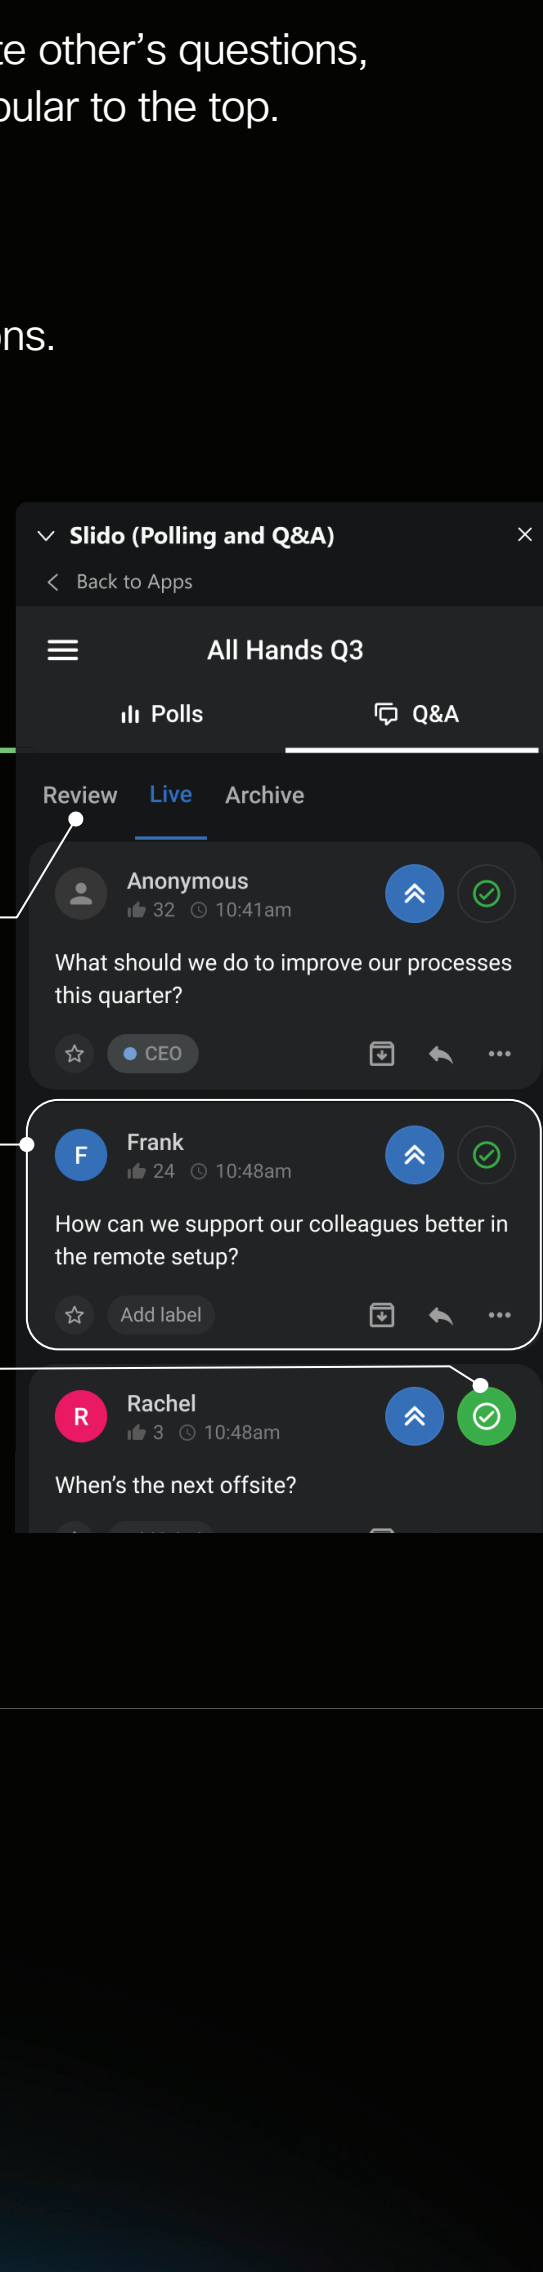

Respond
Allow everyone to respond to questions.

Host view

Review
Filter incoming questions and decide which to address.

Respond
Organize with labels, add to favorites, prioritize, and reply.

Archive
Archive unanswered questions to focus on unanswered ones.
