

Four reasons to buy Webex through AWS Marketplace

1. It's a faster, simpler transaction.

Buying through the Marketplace makes it easy for customers to quickly find, test, and buy solutions.

2. It's an easier deployment.

Buying through the Marketplace makes it simple to centralize governance, innovate quickly, and launch software that aligns with policy and compliance requirements.

3. You can apply your AWS committed spend.

Talk to your rep to learn more about applying your Webex Suite and Webex Contact Center software spend against your AWS committed spend.

4. Now you've got Webex.

Webex Suite

- Integrated meetings, calls, messaging, polling, and more for effortless collaboration designed to support secure hybrid work.
- AI-enhanced collaboration includes real-time translation in over 100 languages, background noise cancellation and voice optimization, and improved participation through gesture recognition and recommendation engines.

Webex Contact Center

- A customizable cloud contact center solution from a single, security-focused market leader.
- Empower your agents with context-driven insights and AI-powered assistance.
- Create intelligent, digital-to-human interactions, tailored to each customer.

Power hybrid work. With Webex and AWS.
