Flexible workstyles: a closer look

Background noise removal & Voice optimization

Filters out noises that would normally be picked up by a mic.

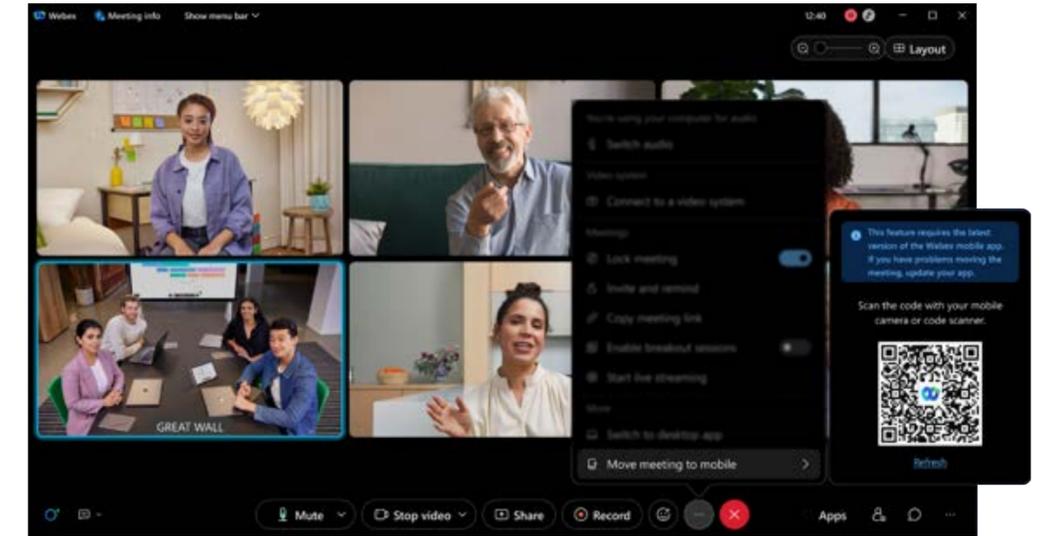

Allows you to choose between your own voice or multiple voices in a meeting, while still removing other background noises.

Apple CarPlay

Empowers hybrid workers to join meetings in the car and seamlessly transition from one location to another without any disruption, keeping the business moving.

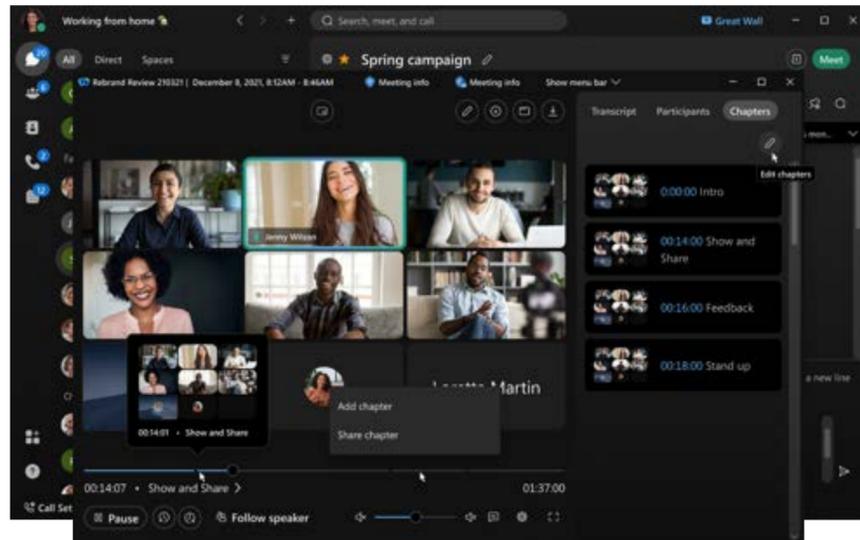

Moving meetings to mobile

Easily go from computer to phone—all by simply scanning a QR code. Never miss a beat when you're on the move.

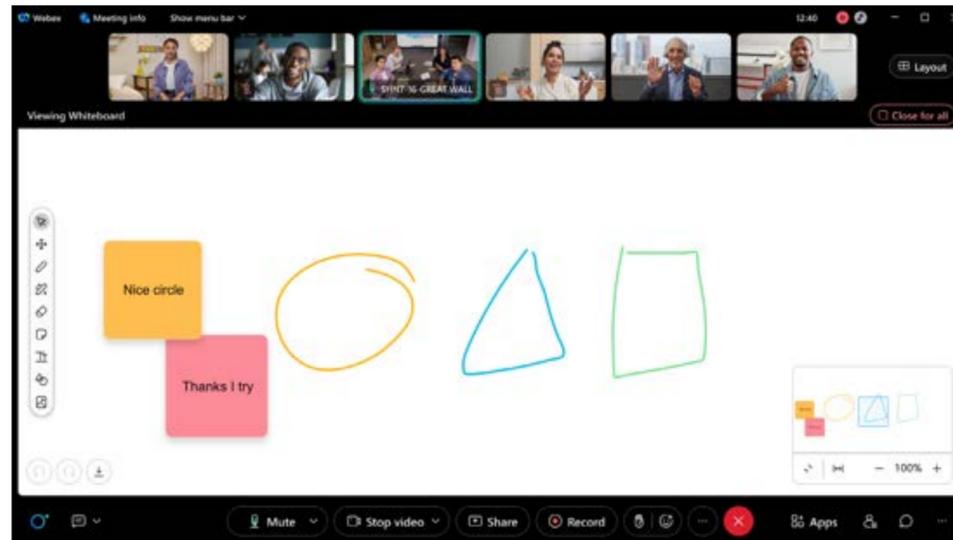

Frictionless workflows: a closer look

Meeting recordings

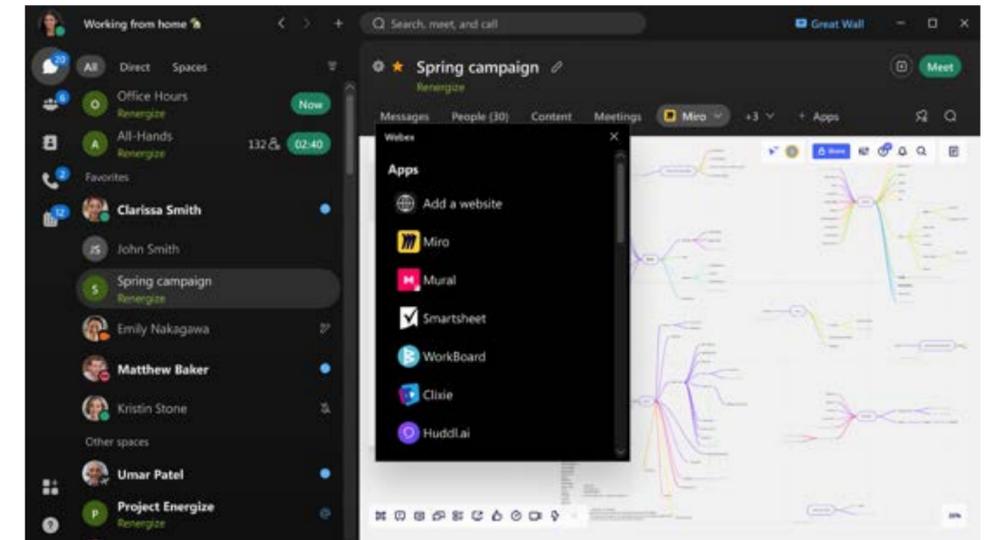

Makes it simple for hybrid workers to catch up on what they missed. Sift through recordings quickly with chapters. Navigating and consuming recordings is a breeze with Webex Meetings.

Whiteboarding

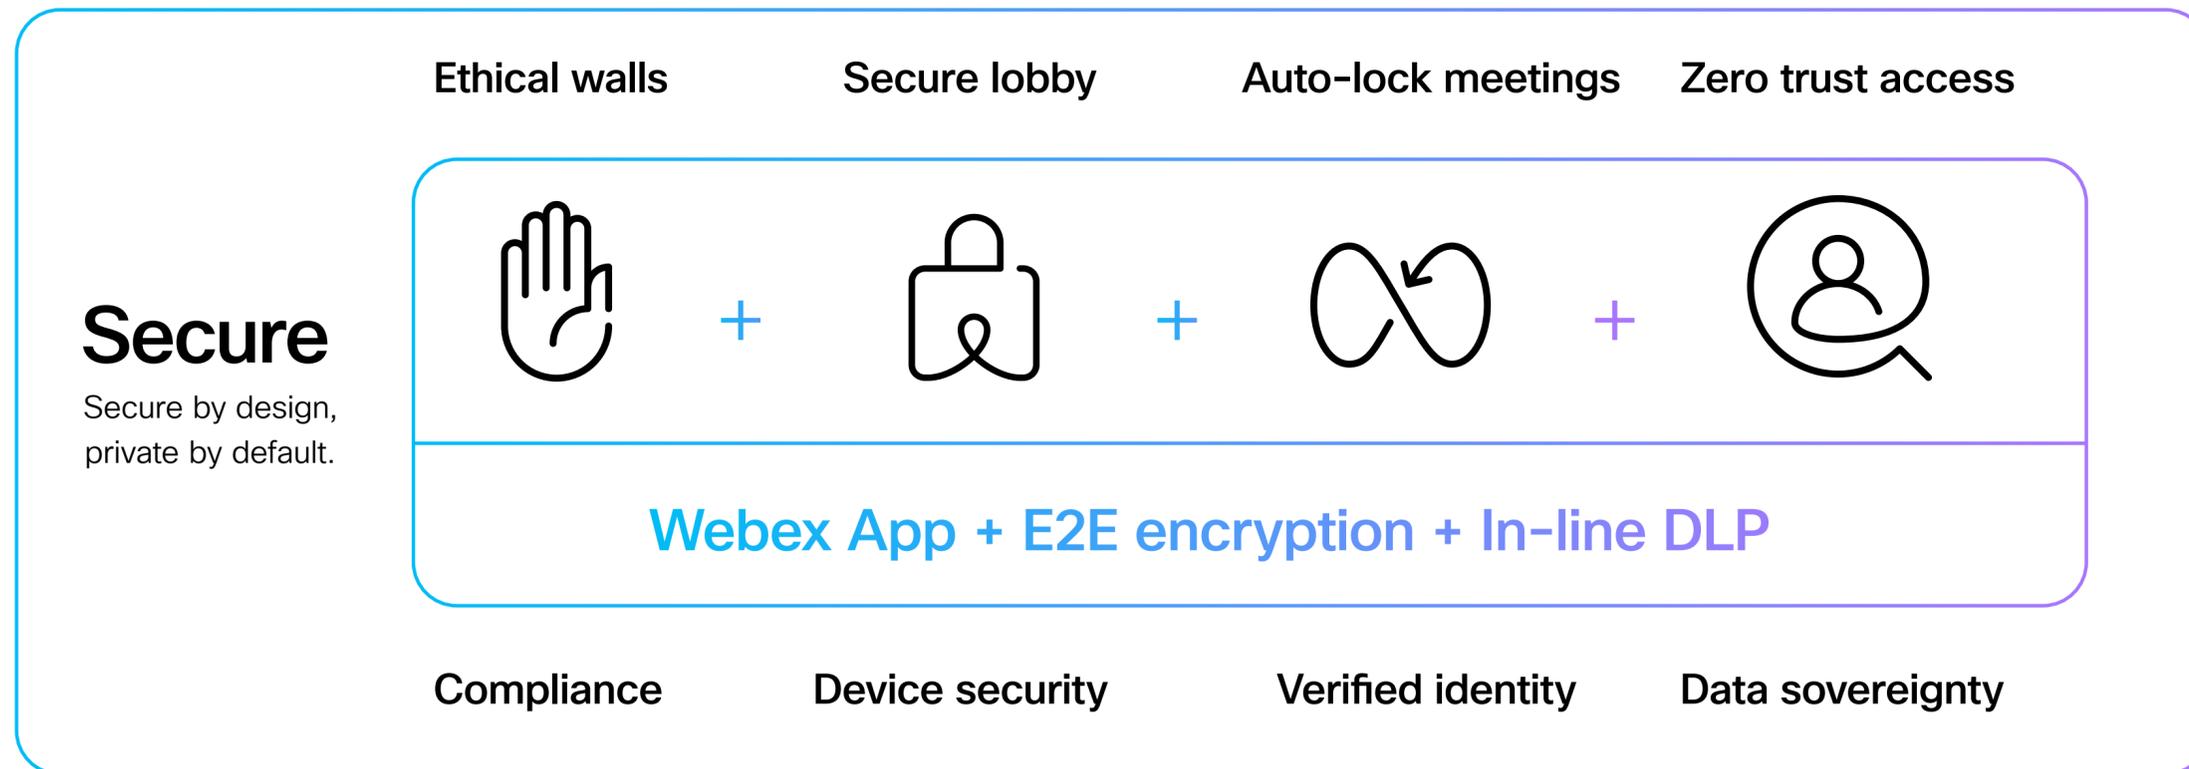

You can work on the same board from your phone or laptop with the Webex app or your Webex device. This way, everyone is looking at the same digital whiteboard.

Embedded apps

Provide access to an extensive app ecosystem from within Webex, including popular third-party apps like Miro, Salesforce, Mural and more.
