

Webex Suite

Connect. Collaborate. Engage.

Hybrid work in the new normal

Collaboration solutions are key to hybrid work success

Businesses are transitioning their workforce back to the office while accepting that some employees will remain remote. The result is a global workforce that is more distributed than ever before.

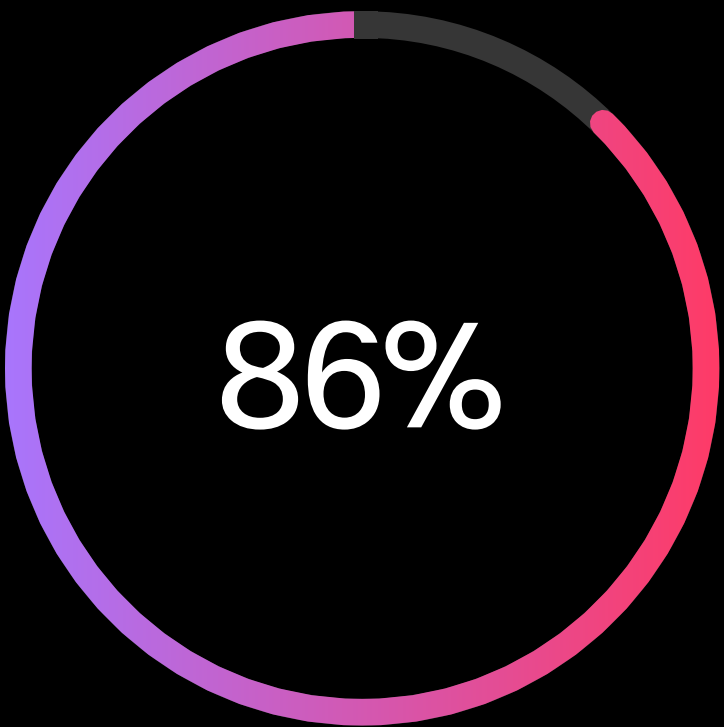

Industry experts report the growing requirement for a single collaboration solution to bring together your contacts, messages, assets and more in one place, on any device.

One solution works best

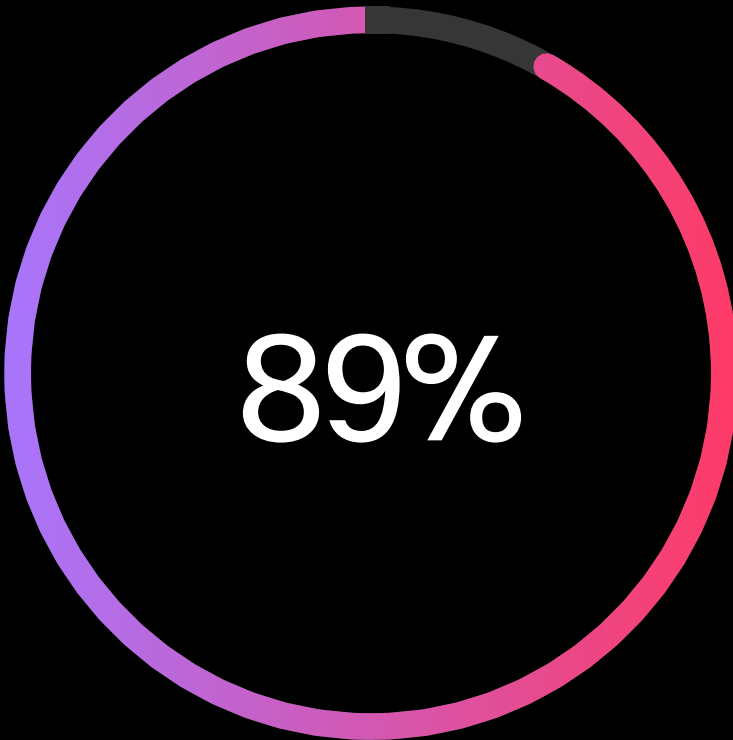

Organizations with multiple collaboration tools experience disjointed communication, additional IT administrative work, and increased security risks. Webex Suite provides a host of solutions that work seamlessly together all while being backed by industry leading Webex platform that is secure, intelligent, and easily managed.

But the challenges of hybrid work are diverse and many

Of importance to global IT leaders:

Empowering distributed workforce with seamless access to applications and high-quality collaborative experiences.

Maintaining security, control, and governance across user devices, networks, clouds, and applications.

Webex Suite

Elevate your collaboration needs for today’s hybrid work

Webex Suite is a fully integrated and intelligent collaboration and communication solution for hybrid work, enabling inclusive experiences for everyone while protecting your data with industry-leading built-in security. It provides calling, messaging, meetings, polling, video messaging, whiteboarding, webinars and event management in a single, unified experience across web, desktop and mobile apps.

Webex Suite meets collaboration and communication needs of every type of business and every workstyle, while anticipating and accommodating future needs. It enables equitable and inclusive experiences for everyone, whether they work from the office, their home, or another part of the world. And it is backed by Cisco’s industry-leading security and networking infrastructure that ensures the best quality video and audio communications.

Calling

Secure, reliable cloud calling

Transform your business with a modern and complete business phone system

Webex Calling connects users through a proven cloud platform used by over 50 million people worldwide.

Our enterprise-grade features, globally redundant infrastructure of 16 data centers, proven 99.999% availability, and end-to-end security, replaces aging premises hardware with an agile cloud platform that is always up-to-date, scales effortlessly, and is available in over 140 markets.

Webex Calling is available through the Webex App, Cisco phones and devices, and our Webex Go mobile-first experience that brings Calling to the native dialer on your mobile phone. Hear every call clearly with our AI-powered Audio Intelligence tools that remove distracting background noise from calls.

Meetings

Reliable and smart meeting experience

Make real-time collaboration engaging, flexible, and productive

Drive better project outcomes by making collaboration more interactive and engaging with automatic noise removal, custom layout, immersive share, whiteboarding, and automatic transcriptions.

Increase employee productivity and optimize customer experience by hosting hybrid meetings from anywhere, at any time, and on any device. The highest business-grade security features ensure all your conversations are private and secure.

Break down communication barriers and ensure everyone feels heard with polling, Q&A, breakout sessions, and real-time language translation in 100+ languages.

Never miss a moment by quickly catching up on meetings in real-time or after with summaries that include highlights, chapters, and action items.

Messaging

Keep workflows moving forward

Messaging that keeps everything in one place, connected with people, and on top of what matters

Always-on messaging lets you minimize meetings, organize your thoughts, and actively engage—how you want and when you want—in an intelligent space that’s personalized to you and your work style.

With Webex, all your messages, contacts, files, content and projects are stored and organized in a secure space—so you never miss a beat.

Remove language barriers and silos and connect to all the people you need to do your job, with real-time translations, anywhere, anytime.

Ensure productive and engaging conversations with intuitive features such as messaging summary to quickly catch up, or leverage AI to perfect the tone of your message before sending out. Improve company culture with engaging and interactive features like animated reactions, GIFs, and more, that let participants express their personality.

Polling

Make your meetings more engaging, interactive and inclusive

Empower all voices by engaging participants with polls, surveys, quizzes and Q&As

With Slido in Webex, you can engage with participants seamlessly, whether in the office or joining remotely, before, during and after meetings. Confirm participants’ understanding of the meeting topics and address any areas of uncertainty. Streamline decision making by crowd-sourcing ideas from everyone and ensuring quick alignment on decisions.

Promote inclusivity in discussions by democratizing the conversation—allow participants to view and upvote each other’s questions. Empower everyone by creating a safe space for them to ask and answer questions anonymously. Improve decision-making by collecting feedback from everyone, not just the most vocal participants.

Facilitate team bonding by allowing your participants to get to know their colleagues and coworkers better. Nurture transparency across the whole company by enabling anyone to ask and answer questions. Build trust between leaders and employees by allowing them to ask any questions and address the most critical ones.

Webinars

Simplified webinars without compromising experience

Simplify webinar delivery with intuitive, engaging webinars that scale with your business

Host all-hands, trainings, earnings calls, marketing events and more with Webex Webinars. Reach global audiences at scale, create meaningful experiences, and deliver webinars with confidence.

Accommodate large audiences and reach more corners of the world. Real-time caption translation and audio translation with live interpreters make it easy to connect globally.

Spark engaging interactions with real-time audience feedback and shared discussion. Easily connect on specific topics in breakout sessions, encourage participation with live Q&A, robust polling capabilities, and animated reactions.

Simplify webinar management, practice before presenting, and set the stage for success. Customize the event registration to reflect your brand, bring presentations to life with immersive share, and utilize advanced attendee management and moderation.

Events

End-to-end event management for events of all types and sizes

Bringing together software, hardware, and services to create the most robust, flexible hybrid events platform in the market

Webex Events is an end-to-end event management platform for in-person, virtual and hybrid events up to 100K attendees.

Webex Events allows event planners to power any kind of event, from multi-day multi-session conferences to trade shows and expos, to highly engaging virtual events, and more.

A one-stop-shop for all of your event and community needs, Webex Events provides a customizable virtual event platform to power all the networking and engagement features you need to drive better event ROI. Webex Events also provides solutions for registration, live streaming, onsite event and session check-in, badge printing, lead retrieval, sponsorships solutions, and more.

Video Messaging

Break free from your calendar

Asynchronous video tool that makes it easy to record, edit, share and discover videos

With Vidcast teams avoid waiting days for calendars to align and can keep projects moving. Record personalized video messages to share team updates or create polished demos and how-to videos that can be shared time and time again.

Vidcasts are widely shareable and can be viewed on any browser with a share link, embedded in a website or wiki, or by posting to a Webex space or top social channels like LinkedIn, Twitter, and Facebook.

Vidcast was designed to save teams time. Highlights and chapter are automatically generated, so viewers can jump straight to relevant content. Vidcasts have a default playback speed of 1.2x, giving viewers an immediate 20% time savings.

Creators can quickly get a sense for which moments are resonating with their audience with reactions, and get instant feedback from their viewers by embedding a Slido Poll.

Whiteboard

Whiteboarding for anyone, on any device

Whiteboard allows everyone to create, contribute, share and collaborate from wherever they work

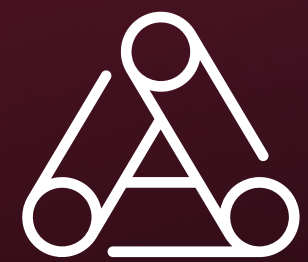

Webex Whiteboard provides teams with a single surface to collaborate on in real-time or at their leisure. Capture ideas, organize information, and provide feedback from any location.

Webex Whiteboard has access to all the tools you need to get started. On an infinite canvas you can add sticky notes, text boxes, ideate with different colored pens, and annotate on everything. Shape recognition tidies up your rusty drawing skills. Everything is right at your fingertips, and everything is simple and intuitive to use.

There is no one-size-fits-all when it comes to device preferences. You can work on your phone, laptop, tablet or Webex device, and the whiteboarding experience will be tailored for whichever device you are using. This way, no one is left out, and everyone can contribute from wherever they are.
