

Transition to virtual learning

Our classroom is preparing for a virtual learning experience. Join our class over video on Webex, instead of coming to the classrooms

Your teacher will keep class engaging, so that joining class from home allows you to keep learning in a new environment.

PRO TIP

Participate!
Contribute aloud on Webex or in chat.
Make your professor glad they had you join remotely.

1. Download the app

Download the app to your mobile and laptop so it's ready when you need it.

2. Join class anywhere

Open your Webex desktop app to join the virtual class. Make sure you're in a well-lit area with good Wi-Fi.

3. Messaging

Participate in class discussion and get the latest news. Don't sit on an unanswered question.

4. Muting

If there's background noise, mute yourself and avoid being a disturbance.

5. Best practice

Ask your professor to record the class so you can refer back or share.

Stay connected with your instructor and classmates no matter where you are.
