

Cisco Webex

Find your happy place

Sometimes you need a quiet room at the office for an important meeting, or to concentrate on your work.

You're in luck! The Cisco Webex Desk Pro turns any focus room into your instant office.

Escape from distractions

Increase your productivity without having to toggle between tabs or application windows. Connect your laptop to Webex Desk Pro to use it as your primary or second display.

It even charges your computer while you're connected.

Hey Webex, what can you do?

Looking for a more intuitive experience? Take advantage of AI features, like Webex Assistant, face recognition, and virtual backgrounds.

Book the room you're working in by saying, "Ok Webex, book this room for one hour." It's that easy.

Worry-free meetings

Meet face-to-face with remote team members, share content, and whiteboard ideas.

When you're in your meeting, Webex Desk Pro automatically adjusts your camera view and cancels out background noise, so you can stay focused on getting work done.
