

## Keep a strategic focus

Show up anywhere in the world, immediately, easily and most importantly of all professionally.

Trust the Webex Desk Pro for all your important face-to-face conversations with your team or clients, wherever they are.

With its background noise-reducing technology, high quality display and its virtual background option, there's no need to worry about inadvertently showing people, products or data around or behind you. Participate in meetings worry-free without wasting time or compromising on professionalism.

### **Fast and Easy**

Join your meetings simply by tapping the green button on your screen. In seconds you are connected, people will see you perfectly framed and with crystal clear audio free from background noise.

### **Practical and functional**

Get work done as easily as if everyone was in the same room. Share your screen, collaborate with infinite whiteboards and capture thoughts and decisions with sticky notes.

### **Innovative and empowering**

Annotate and edit documents in real-time with the touch re-direct function, transforming your laptop into a touch screen. No need to worry about your battery, charge it directly from your Desk Pro.

**Webex Desk Pro delivers cutting edge, worldwide meeting capabilities to reduce needs to travel, saving you precious time.**
