Webex Customer Experience Essentials

Customer Experience Essentials bridges the gap between UCaaS and CCaaS by combining a complete business phone system and an essential selection of contact center tools in a single, cost-effective license. Customer Experience Essentials is available now to customers worldwide.

Call summaries and recording

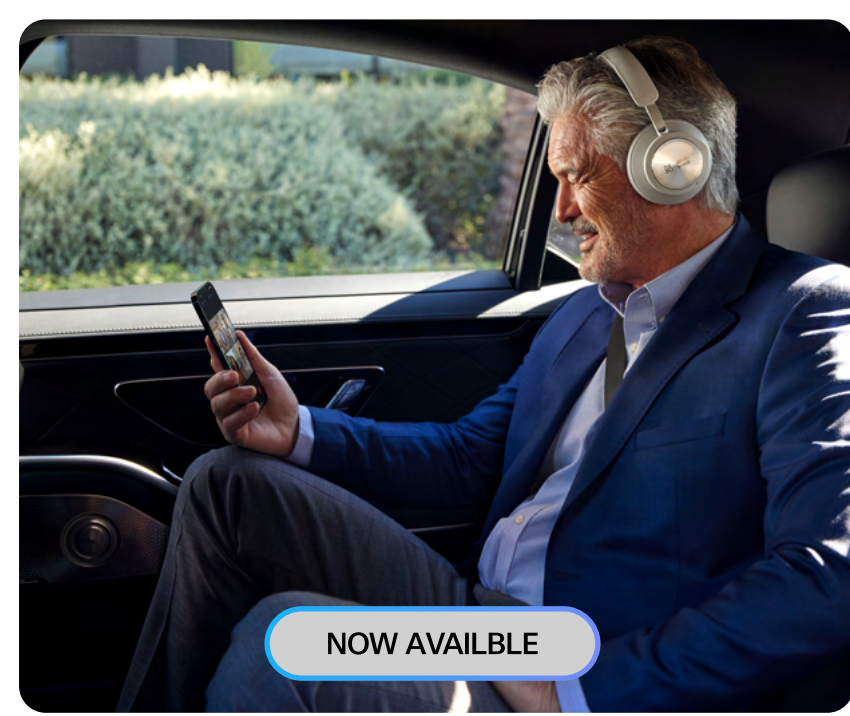

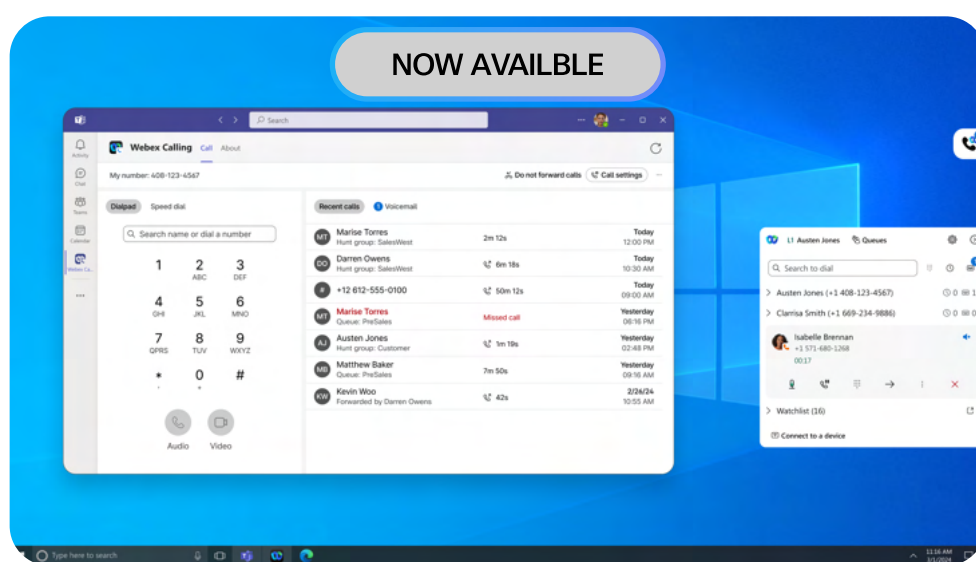

Never forget an important conversation with AI-powered Call summaries. Easily record calls natively with Webex Calling and review the highlights of your conversations directly in the Webex App.

Microsoft Teams integration enhancements

We've enhanced our Teams integration with the Calling dock. It gives you quick access to calling features like the multi call window.
